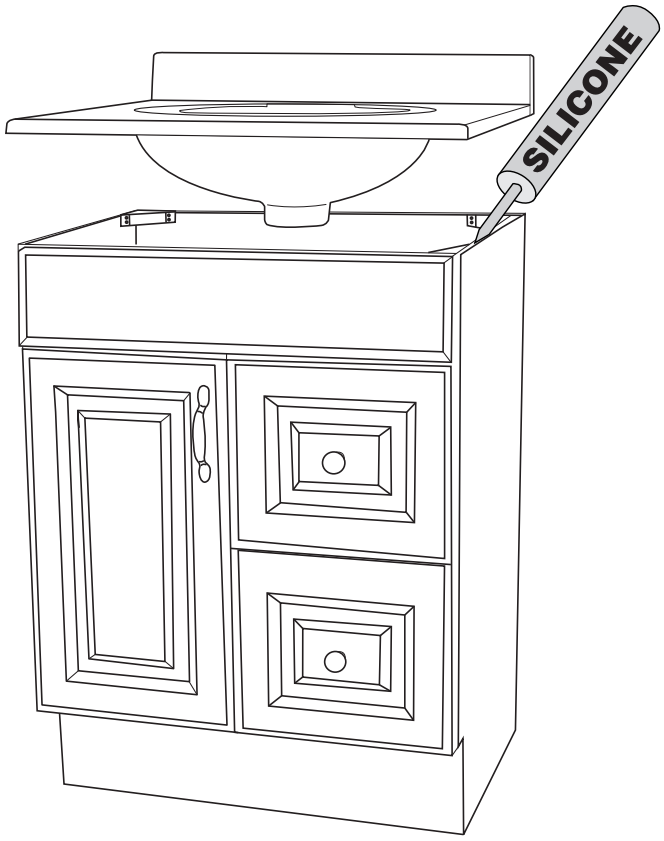
Vanity Top
Installation Instructions



1. Make sure the base of the vanity is leveled by laying a level across the top.
2. Set the vanity top on top of the vanity base, checking the location of the p-trap and drain.
3. Remove the top and install the faucet per manufacturer's installation instructions.
4. Hand tighten the pop-up drain with a wrench. Be careful not to over-tighten the pop-up drain. Over tightening may cause cracks on the marble top.
5. Apply a thin bead of silicone compound around the vanity base and set the vanity top carefully in place. Remove any excess silicone compound with a wet rag.
6. Attach water lines to faucet and connect the p-trap and drain.
